

Development of ACE's policy position papers on labour migration

As ACE's focal point in labour migration, ECOT has collaborated with ILO Triangle to develop ACE's policy position papers on:

- (i) the portability of social security benefits for migrant workers in ASEAN; and
- (ii) skill mobility, recognition and development of migrant workers in ASEAN.

A regional employers' validation workshop will be held in Singapore on 9 May 2025, in conjunction with the ACE's annual CEO and BOD meeting.

The ACE policy position papers will be published and launched by June-July 2025.
